## THE PHILIPPINE POLICY.

Speech of Hon. James B. White of Kentucky, in the House of Representatives

Tuesday, April 15, 1902.

The House being in Committee of the Whole House, on the state of the Union, and having under consideration the bill (H. R. 12765) to provide revenue and appropriations with respect to the Philippines;

Mr. CHAIRMAN.—While I regard the pending measure as important in some of its bearings as affecting the revenues of Government, not very materially, however, and as extending some relief to the people of Cuba, the most interesting phase of the subject, to my mind, is that the discussion of the bill will tend to dispel the delusion, which has so constantly kept before the people of the country the political effect of the special interests of Cuba, that a high scale of tariff duties has brought all the happiness and prosperity we have enjoyed in recent years, for we have now the admitted fact here brought forward and advocated by those who have so persistently made this pie that this protective scale may be lowered upon one at least of the articles of daily use by the people—the sugar they consume—without destroying the domestic industries furnishing it, thereby presenting an ultimate hope to the great toiling masses of consumers of the country that a market can be given the sugar manufacturers interests supplying their necessities of life can reasonably be expected to pursue their business without being specially favored and fostered by Government aid at the expense of far the more numerous classes of the people of this country, except to the extent the aid may be given in laying a just measure of tariff duties to raise revenue for the Government.

But we can not help but note the deplorable character of the struggle here made to continue this protection, persistently claimed as a right, by the representatives of these foreign countries. They almost shed tears in their pathetic appeals for the continuance of their favoritism to their particular sections and fostered industries, that accumulated corporate wealth may flourish at the expense of the people.

Thinking these aspects of the case were made sufficiently manifest already by the discussion, I will ask the indulgence of the House to present my views briefly upon a matter which, to my mind, is of greater consequence to the American people than any other now asking solution at this time.

The policy pursued by the Spanish and the course of events in the Philippines Islands since the treaty of Paris mark an epoch in American history, not to be noted so much for the relinquishment of sovereignty over the islands by Spain as for the influence and ultimate effects upon our own country and its institutions; not so much to be weighed by any changed condition of the unfortunate inhabitants of these realms, if to us than useless islands if the change done ought but bring deeper gloom as by the drift and tendency upon our own political moorings and destiny.

Thinking of these aspects of the case, we made sufficiently manifest already by the discussion, I will ask the indulgence of the House to present my views briefly upon a matter which, to my mind, is of greater consequence to the American people than any other now asking solution at this time.

What result should have followed? What was the reasonable expectation? Why should we require this sacrifice by Spain of her ancient possessions improved by her efforts for centuries? Was it to give the islands to the United States?

No; for it was a coincident fact that the payment of \$200,000,000 came as a proposal from our commissioners upon demanding the cession of these islands. Was conquest the object? This was denied by our declaration and nowhere demanded by the great and generous people of this country.

No, Mr. Chairman, the motive inspiring the people of the United States had a higher purpose than patry indemnity, unequal conquest or the acquisition of territories from a weaker adversary.

It was a motive to relieve the down-trodden people like the slaves of the South from oppression for the sake of the right of self-government. And this high purpose should have been carried out by those intrusted with the Administration.

There was but one rightfule sequence, but one justification for the removal of Spanish power from the Philippines, and that was to confer upon the inhabitants the greatest of all political rights—that of free and independent government.

The opportunity was then offered, as never before in all history, to vindicate to the world the strength, the grandeur, the beneficence, and humanity of our institutions, and to extend them the influence and dominion of mankind.

It was a misfortune, however, that the influence of Spain authority would be withdrawn from Cuba, and Porto Rico ceded to us—conditions justified by the circumstances and approved by our people—but, when near the close of the treaty, the realization was first brought to our country that a cession of these Asiatic Islands was to be forced upon Spain.

The opportunity was then offered, as never before in all history, to vindicate to the world the strength, the grandeur, the beneficence, and humanity of our institutions, and to extend them the influence and dominion of mankind.

To turn aside from this, our plain path of duty and sound policy was to disregard the fundamental principles of our Government, the teachings and admonitions of its great founders, and every consideration of wisdom, peace and safety.

It was the greatest political mistake of any age. It was worse than a blunder; it was a crime.

The proposition may be laid down as easy of logical demonstration, if it is not self-evident, that the relative location of territory to that of our union should form a controlling consideration in the question of making it a part of our national domain, whether it be inhabited or not. No valid argument can be presented nor any just expectation entertained that islands or territories thousands of miles away from our shores, not a part even of our continent, can bring us to the unity of purpose the same aspirations, joint efforts, and common interests that bind together the people of our States in the ties which constitute our pride in peace and balm in war.

If these elements of sympathy and joint interests are to be found in the proposition, then it seems to be entitled to be united with us, if there is to be no cooperation in a common destiny and in public dangers, what desirable bond of union

there is of events with feelings of unity and apprehension. But little did we know the fatal consequences that were to follow. The event was of far-reaching, momentous importance; not indeed that the political power of one of the old monarchies of the world was to be removed, for Great Britain once before in 1763, wrested these possessions from Spain and after holding them two years, and finding them worthless, sold them by treaty with the great and vital importance was that Spanish dominion over these distant territories was to be forever past with the mandate of the only

powerful nation of the world.

It is well remembered how the negotiation of that treaty lingered; how it was known that Spanish authority would be withdrawn from Cuba, and Porto Rico ceded to us—conditions justified by the circumstances and approved by our people—but, when near the close of the treaty, the realization was first brought to our country that a cession of these Asiatic Islands was to be forced upon Spain.

This result was not expected by the people of the United States in general, but they waited

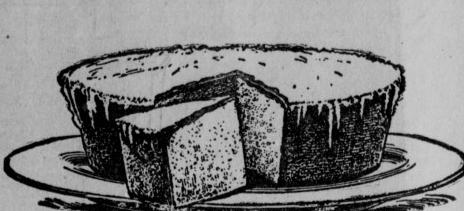

with impatience with feelings of uncertainty and apprehension. But little did we know the fatal consequences that were to follow. and just policies.

So far as I am concerned, Mr. Chairman, the counsels and admonitions of those who laid the foundation of our political fabric shall be sufficient guide. And it will be an evil day when the American people shall forget or turn aside from these warning and teachings. The great author of our Declaration of Independence said:

"We the people are instituted among men, deriving their just powers from the consent of the governed."

"Peace, commerce, and honest friendship with all nations; entangling alliances with none."

The Father of our Country said to us:

"The great rule of conduct for us in our foreign relations is, in extending our commercial relations, to have with them as little political connection as possible, and as far as possible, to limit their political engagements, let them be fulfilled with perfect good faith. Here let us stop. Our detached and distant station invites and enables us to pursue a different course."

"Why forego the advantages of so peculiar a situation?"

"Why quit our own to stand upon foreign ground? Why expose the vulnerability of your countrymen, these counsels of an old and affectionate friend, I dare not hope they will make the strong and lasting impression I could wish them to make; they will not prevail the usual current of passions or prevent our nation from running the course which has hitherto marked the destiny of nations."

In direct opposition to these teachings we now have proclaimed the uncertain and boastful doctrines, bounded by no determinate limits, of a liberal construction of our organic law; of strong, aggressive foreign policies; of making our nation a world power; of expanding our possessions to distant islands and continental and inter-island purposes; of great and ever-increasing naval and military establishments.

A mission of peace to the people of the Philippines Islands will be sent from our people in the near future. I trust, bearing the message of freedom and independence for them. Let us hope that this blessing to them and honor to ourselves may not be long delayed. [Applause.]

It is asserted that the Filipinos are uncivilized, and incapable of self-government. This is an assertion easily made and has often been the plea for oppression.

It is equivalent to saying that Spanish rule has never brought advancement to its colonies, notwithstanding the building of churches, cities, institutions of learning, and all the establishments for national, religious, and educational progress. While Spain from time to time has lost her vast colonial possessions, she has always left remaining magnificent works of art, architecture, and learning.

## MEAT TRUST.

For this enormous combination of capital we have no sympathy and shall offer no quarter. At present beef is high and it is more than possible the trusts have made it so, but if can make beef high can also make it low. One year they can have the farmer enthusiastic and wild over high price, and the next year they can be starving them if they choose with beef at 1½c per pound rather than 6c it now is. Better allow competition backed by the law of supply and demand to control prices. A trust is said to be soulless and their ways are past finding out.

## NOW THEN.

Berry Howard has been acquitted on the charge of complicity in the murder of Wm. Goebel. The jury was composed entirely of Democrats. This fact should be born in mind by those Republicans who in substance have been saying: of course no one accused can have a fair trial; they will convict innocent men; with that \$100,000 they will swear away the life of any man. We do not question the verdict of the jury. They were in possession of facts in the case and have no doubt rendered a just verdict. We are anxious that the guilty be punished, and the innocent set free if arrested.

## FOR CIRCUIT CLERK.

We take pleasure in announcing to the voters of this county that Joe H. Kemper is willing, yes anxious, to perform the duties of Circuit Court Clerk of this county. Joe is a Democrat, genial, capable, accommodating, unmarried, fine looking, fair, fat and less than forty. He is a native of this country. His experience as a deputy for four years as County Court Clerk well qualifies him for the duties of the office to which he aspires. He is a crack shot and will be apt to bring down his opponent as easily as he does a pigeon. Joe has many friends who wish him success.

## AT LARGE.

Within a week's time there has been reported two robberies and no arrests; also one attempt at assassination, and we ask the Mayor of city to look after the matter, for the first thing the people know some one will be relieved of a large wad or some one will lose his life. We know two night police cannot be everywhere at the same time,

and in the case of an emergency as now assistance is needed and should be provided.

These robbers and would-be assassins should be found out—they must be—and then be forced into a speedy trial.

## WARNING.

We are informed that distillery stop is being turned into Hinkston at the distillery here, polluting the water so that stock refuse to drink and the smell of decaying matter is becoming past endurance. The manager of this institution is acquainted with the company's pledge and with the laws of the land, and we merely call attention to complaints now.

The old feeling that "anything you can get out of a railroad company is so much gain," is dying out, and people are learning that the railroads are the best friends any community can have.

No community can thrive without railroad facilities, and the greater these facilities, the better the opportunity for thrift. Every town may be benefited by cultivating the acquaintance of railroad people, and getting them interested in the progress. This is not a difficult matter, for the railroad men know that whatever goes to build up the town on their lines helps their company also, and in nearly every instance their share in operating with the people. They should be known personally by the business men of the different towns, for a personal acquaintance has much to do with fostering good feeling.

The ambition of the towns in the way of public improvements should be made known to them, in nine cases out of ten the railroads will aid and encourage the people. In short, the railroads and the communities should get close together, and work for mutual good rather than along lines of antagonism.—Paris Gazette.

Hon. John W. Verkes may become a member of the present Administration with Mr. Roosevelt President. A high compliment would such a promotion be, and Mr. Verkes would honor the Cabinet as much as the position would him.

## Salted Husband.

At English, Indiana, cruel and inhuman treatment will be the rule of Thomas Foley for divorce. His wife admits that she tied his hands and feet while he was drunk and applied salt to his hands, face and clothing, that the cattle in the field where he lay helpless might link him to death as a revenge for a beating she received during a drunken orgy.

## The Man Who Executed Czolgosz.

E. F. Davis, who pressed the button at Czolgosz's electrocution has been missing since soon after the electrocution, and his family has given him up for dead. He had received several letters from Europe and this country, saying that if he carried out the State's orders he would be summarily dealt with.

## Unusual Case.

Recently a stranger went into the Farmers bank and handed Mr. A. W. Overton, the cashier, \$80, remarking that he owed the bank that amount which he had received in overpayment of a check some eighteen years since. He said then teller of the bank, who was Mr. Theobald, paid him \$80 plus a \$50 check. He said that he had been out of the State during all that time and that was the reason he had not returned the money sooner.

The records of the old Farmers Bank of Kentucky show that Mr. Theobald made good the \$30 short in cash that time and the money will be sent to his heirs—Frankfort Roundabout.

A. K. Wilson, of this county, has bought a farm near Lawton, Oklahoma, and will deal in cattle.

On Thursday in Cincinnati three choice hogsheads of tobacco raised on Lewis Apperson's Bath county farm sold for \$2450., 28.75 and \$1.25 per 100 lb. He had previously sold the entire crop of about 10,000 lbs. to a Carlisle dealer at \$12.

An enormous number of eggs are used in the arts. Egg soap is made by the Tartarians of Russia. Albumen and egg oil is made from eggs. Egg pomatum is also made. The yolks of eggs are preserved in the form of powder which is used in bakeries and confectionaries. The yolks may also be preserved in glycerine and salicin acid in the liquid shape and are used in tanneries in this form. Eggs are extensively used in this country by photographers.

Although not as nimble as the horse the mule is an excellent animal for farm purposes and ought to be more popular. He is hardy, a good forager, and when not working costs little to maintain. Although a prejudice exists against him, the mule if given a chance, will wear it down. He is as profitable as the horse, and as easy to raise. True, the range of his heels is dangerous, but the man who doesn't know enough to keep out of reach of a mule's hind legs should be incarcerated in the same padded cell with the fellow who lacks sufficient intuition to go in when it rains. All the mule requires is a little encouragement. He will do the rest and do it with profit to the man who furnishes the encouragement.—Chicago Live Stock World.

I also have a farm of 50 acres adjoining town, on the Owingsville pike, which I will sell privately on liberal terms. It is all well set in grass, except garden.

### DESCRIPTION

Bay stallion, star-spangled, hind pasterns white, 15.35 hands high, foaled in 1884. A fine, large, well-made horse with plenty of substance and quality. An exceedingly well-bred horse, and a high-class race horse. Secured his record in a five-horse winning race, and was only beaten a head in 2:10<sup>1</sup><sub>2</sub> by but a few feet. ST. VINCENT'S opportunities have not been good; he has but few foals out of good mares. His best performers are all trotters. He has never sired a pacer. Lord Vincent 2:08<sup>3</sup> by him is, in my opinion, one of the very best trotters of the present day. He was far from being a bad horse, still in that condition, he raced better and stronger, grieved harder than most horses that are free from soreness. ST. VINCENT will get great trotters, for in the last two years he has had a better class of mares. I like his breeding and am confident that he will sire great race horses.

ST. VINCENT will stand at the stables of the Mt. Sterling Stock Yards Co. at

## COUGH?

Take Vinol, It Prevents Consumption. Coughs Lead to this Disease.

Don't keep on coughing. Please take, on our advice, and take that which will heal the inflammation in your lungs, throat, and bronchial tubes. We refer to VINOL.

The great tonic reconstructor accomplished this by so nourishing the body that diseased tissue cannot exist.

The reason that we sell VINOL and endorse it so highly is that we trust in ourselves. Not only have we investigated ourselves, but we are taking as our authority the opinions of every big doctor in this country and elsewhere.

The following letter on this subject will interest our readers:

"Last Fall and Winter I suffered from a cold, and it became so bad that I had to go to bed. I felt pains in my side and lungs, and I had heard about VINOL and decided to try it. It cured me completely. THOMAS C. PRINCE, Wickford, R. I."

We wish to invite everyone to call on us and let us tell you why we can sell VINOL on a guarantee, and will refund the money to anyone who does not find it will do all that we claim.

### The Most Stubborn Coughs

resulting from an attack of la grippe or heavy cold, must yield to the wonderful healing properties of Foley's Honey and Tar, which strengthens the lungs and makes them sound.

F. C. Duerson, druggist.

Every kind word you say to a dumb animal or bird will make you happier.

V. B. Conklin, Bowersville, O., says: "I received more benefit from Foley's Kidney Cure than from months of treatment by physicians."

F. C. Duerson, druggist.

Always kill a wounded bird or other animal as soon as you can. All suffering of any creature, just before it dies, poisons the meat.

Show too small for her, if it comes to a pinch.

B. Presson, Presosville, Kans., writes: "Nothing like Foley's Honey and Tar" is the universal verdict of all who have used it.

Especially has this been true of coughs accompanying la grippe. Not a single bottle failed to give relief.

## Another Statement About That Corn Crib.

In our issue of April 15 we stated that in a crib whose dimensions are 14x9x5 ft. there are 98 and 15 one-thousandths barrels of corn, containing 2218.192 cu. inches in a bushel. We had forgotten the number of inches in a bushel, so we consulted an arithmetic at F. C. Duerson's drug store.

We are in receipt of a communication from G. W. Thompson, Olympia, Ky., saying that in that crib are 101.25 barrels. He says that the arithmetic (Towne's) by which his calculation is made give the inches in a bushel as 2150.4.

As we are not expert in deciding differences between mathematical measures we submit the above to the public. This difference is a matter of importance to the dealers in corn who are interested in that crib for the two counts vary 3.095 barrels, and this quantity of corn at \$3 per barrel means \$9.28.

These are the facts, and Observations are: If by our report we have caused the purchaser to gain \$0.928 he should subscribe for the MT. STERLING ADVOCATE for over 9 years (say as long as he lives) and by a conference with the seller of that corn adjust their deal; and our subscriber who sent in the query can verify our report by examining the same arithmetic at the drug store. \$9.28 is not picked up every hour, so we suggest further consideration.

## Winchester's Advantage.

T. P. Creed, representing The Gaar Scott Co., sold to a Mt. Sterling party last week a threshing outfit amounting to \$2,100. It will be shipped to Winchester because the competing lines of railroads here a much less rate of freight can be secured."

The above was clipped from a Winchester paper. This is of that city's advantages regarding railway competition. When the electric road is built to our city we will probably not be subject to such discrimination. The haul from Winchester to this place is a short one, and probably the C. & O. can afford to handle the shipment.

## Judge Benton Appointed.

Gov. Beckham appointed Judge J. M. Benton, of Winchester, Judge for this district to fill out the unexpired term of Judge Scott. We regard this as a fitting recognition of Judge Benton in a double sense: His service to his party and his ability as a lawyer. He will fill the position with credit. We have been associated with him in Boards with which we are connected and in other ways, and we have found him in these relations level headed, just and honorable. He will carry the same traits with him to the Judges' bench.—Winchester Sentinel.

The above by the editor of a Republican paper is no doubt a just compliment.

# NOT GUILTY.

So Declares the Jury in The Berry Howard Trial.

The Jury reported in the case of Berry Howard charged with complicity in the murder of Senator Goebel, at 12 o'clock Friday, finding the defendant not guilty as charged in the indictment.

When the jury first entered the room the first ballot stood 10 to 2 for acquittal. After discussing the case at length and on the second ballot all stood for acquittal. The jury was out one hour and fifty-five minutes and was composed exclusively of Democrats.

Howard was immediately surrounded by people in the courtroom and congratulated. He was defended by Col. D. G. Colson and J. G. Forrester, of Middlesboro, and Guy H. Briggs, of Frankfort.

### Deplorable Affair.

Our neighbor of Winchester was the scene of a serious shooting affray on last Tuesday evening of last week, the participants being Henry Besuden and Robert Eton, two prominent young men of Clark, on the one side and Lee Bates, colored, on the other. The trouble arose over a street fight between two little boys, one white and the other colored. Wm. Bruce attempted to stop the little fellows from fighting when the negro Bates interfered and drew a pistol. Besuden grabbed the negro when he (Bates) began to shoot. Besuden was shot twice, in the chin and neck, and Eton once, the ball entering the body above the right collar bone and passing downward through the apex of the lung.

Excitement ran high and Bates would, in all probability, have been lynched had the authorities not promptly slipped him away to Lexington.

Last reports say Besuden is getting along nicely; Eton not doing well but recovery hoped for.

At the last service on Tuesday Roy Alexander made a confession of faith and Mrs. Sallie Perry, Miss Sallie Overley, R. F. Moore and wife were received from other congregations, making a total of 49 additions. Rev. Jenkins has endeared himself to many who heard his sermons. His sermons were scriptural, serious and learned, and the speaker calm, earnest, refined and dignified. On Wednesday evening he spoke of the importance of education, and the prominent educational institutions among the Disciples of Christ.

Among the young men who finished their course in Theology at McCormick Seminary, Chicago, Ill., this spring we notice the name of one who was born and reared in our city, Mr. Harry C. Rogers. On May 1st at the Commencement Exercises he will receive his diploma. If we want to get an idea of the wide prevalence of stomach trouble, let us note the numerous advertisements of so-called "remedies" for disorders of the stomach. It is in part due to the abundance of these preparations that diseases of the stomach reach such painful and serious proportions. The earlier symptoms of stomach trouble, sour or bitter risings, belchings and a feeling of uneasefulness after eating, may be relieved by the use of these nostrum-like remedies. But though the pleasant symptoms are relieved, the disease goes right on until some day it reaches an acute stage where palliatives are powerless, and even the ordinary treatment of physicians is unable to afford more than temporary relief.

Dr. Pierce's Golden Medical Discovery is gaining a wider recognition every day as one of the most valuable of medicines, because of its cure of diseases of the stomach and other organs of digestion and nutrition. The cures effected by the use of "Golden Medical Discovery" include a remarkable number of so-called "hopeless cases" cases diagnosed by local physicians as castor of the stomach, intestinal dyspepsia, and other forms of acute disease of the stomach. These cures are made so rapid so sure that no matter what form of stomach trouble one may be afflicted with he may begin the use of Dr. Pierce's Golden Medical Discovery with the assurance that a cure is certain if it is within the scope of medicine to cure at all. In forty-nine cases out of fifty where it is faithfully used the "Discovery" will cure.

#### "I Had Given Up all Hope."

"At the time I commenced taking your treatment," writes Mr. G. C. Feaster, of Tara South Penn Sq., Philadelphia, Pa., "I had given up all hope and became disgusted with patent medicines. After serving as a marine engineer on a passenger steamer I noticed that my health was failing fast. Owing to my age and robust appearance I was laughed at for the complaints of feeling so miserable, but I suffered out of it, and as my healthy looking appearance disappeared and I began to feel that something should be done, as I could hardly get around. Doctor treated me for nine months, but had no chance to exercise at all, after taking the first dose of medicine my bowels became constipated, and I suffered from diarrhea. I had a burning in my throat almost constantly, which prevented me from eating anything greasy at all, and my stomach felt as though it was full of stones. I soon began to feel better, and in time completely recovered my former health."

**VERY VALUABLE.** "I fully appreciate the value of your 'Medical Discovery' series F. T. Haughton, of Horowitz, Marquis Co., Gal.," writes F. T. Haughton, of Horowitz, Marquis Co., Gal., "and consider it a hundred times more valuable than any medical work ever published before." Dr. Pierce's Common Sense Medical Adviser is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

#### Changes in the School Law.

The Legislature made changes in the school law. Among those were the following:

The June examination for the graduates of common schools was changed to the second Friday and Saturday in May, and two days instead of one assigned to the January examination.

It has never been possible to pay the forty per cent of the public fund in October, as the law provided, and the payment of the forty per cent is deferred until December.

The minimum salary that any county may pay to the County Superintendent is \$400.

Heretofore when a school house was condemned, the trustees under penalty, were required to have it replaced in a year. This penalty is now removed and the trustees may levy and collect a tax from year to year until a sufficient sum has accumulated to build a house.

When two thirds of the voters of a district have voted a tax the trustees may borrow the money to build a house.

Heretofore the week of the Teacher's Institute has been counted as a week taught when it occurred during the session of the school, but now the teachers must teach twenty weeks without County Institute week.

#### Kindness Gratefully Returned.

Mr. T. H. Davis, of Winchester, kindly loaned his mare and buggy to a Mr. Ben Cox one day last fall. Mr. Davis never heard from his horse, buggy or man until one day last week when Mr. Geo. McCallon, of this place, located the man and rigat Berea. Mr. Davis immediately boarded the train and on reaching Berea saw his man but was unable to get him as he boarded a moving train. At a total cost of about \$10 Mr. Davis secured his horse and buggy. He says he wishes Cox had sold the horse and buggy so he could be justly prosecuted. Cox is an Erstwhile organ, piano and sewing machine agent and is at this time selling (?) buggy rugs about Berea.—Winchester Sentinel.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional treatment on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, Hall's Catarrh Cure, F. J. Cheney & Co., Toledo, O.

Sold by Druggists, 75c.  
Hall's Family Pills are the best.

#### Let us Repeat.

Editor Duley of the Flemingsburg Democrat, says:

"For the 'steenth time let us repeat that the only genuine, blown-in-the-glass, all-wool-and-yard-wide seventy-year locusts are not due to arrive here this year. They were here in 1855, 1872 and 1889, and consequently are not due until 1906. Any locusts coming this year will be base frauds and imitations and not the genuine article."
